\$4,199 (page 3)

CargoCart
Indoor & Outdoor Sports
\$439 (page 6)

Tight Budget?

Building the best equipment in the industry doesn't come cheap. If you're on a tight budget we might be able to help you work with an advertising sponsor (page 8). Almost half of the Rhino Carts we shipped in 2018 were sponsored at little or no cost the team.

We also have an athletic tape bulk purchase program where you can earn free carts after purchasing a qualifying amount of tape. Contact your sales rep to learn more.

***Prices valid through 12/31/2019.**
Digital proofs are always free.

Satisfied Customers

Product Upgrades

"It is a very functional cart with ease of movement and adequate storage for our sports medicine supplies, including splints and braces. In our clinic it serves as a taping/treatment table...at football games we easily roll the cart onto the field so that we have the necessary supplies and a treatment table during the game. I highly recommend the Rhino MedCart."

- Doug Toole PT, fmr NFL Official

"The Rhino MedCart's overall ability to focus my equipment, as well as my attention, in one area makes it an extremely valuable piece of equipment. The cart is moveable whether I need it in football, softball, or soccer. The Rhino MedCart is an excellent platform for examination of injured athletes, and for taping that needs to be done on the sidelines during practice and games. Primarily, I like things that make my life easier. This product makes my life easier. That's why we acquired it."

- Dale Mildenberger, NATA Hall of Fame, fmr Head Athletic Trainer at Utah State University

"We have 6 of your Rhino Carts and have been very happy with them...It is secure to keep our supplies safe, and it offers a great way to market our business to the public. We always put the carts in an area that is visible to the spectators. The schools have appreciated our willingness to purchase this for their use. All in all it is a wonderful product."

- Larry Fullmer PT, CEO of RPT Inc

"My Rhino Cart is so incredibly built and functional...It's the absolute best purchase I've ever made in my 28 years in AT'ing! Bar none! - David Stanley ATC, Lawton High School, [@injurypics](#)

Upgrade your Rhino with the RMWS - Rhino Medical Work Surface

Simplify your sidelines with the Rhino Medical Work Surface. Now you'll have a dedicated place to put your scissors/wraps/sprays/supplies while you treat your athletes. The RMWS also lifts open for extra storage. The RMWS comes standard with our Medical SuperCart and can be added to our Medical Cart as an option.

Support your team.

Advertise with a Rhino SuperCart.
